

Lab 2:

#Create a file

```
touch Readme
```

check the git status

```
git status
```

#Under 'Untracked files' you should see "Readme", showing that this file has been changed but has not yet been added

Add the README file to the Git staging area

```
git add Readme
```

```
git status
```

#commit the file, -m option to add message while committing

```
git commit -m "Adding file"
```

```
git status
```

#Run git log, to see the commit history

```
git log
```
